From the beginning, it was highly important to the film makers and fashion show producers that we make this movie safely in the pandemic. We committed to self-isolating in advance of the project when possible. Meetings were held online. Scouting locations was left to a group of two to three. We were always in masks. We used a lot of sanitizer. And once on set, we had three MAC500s running, courtesy of [Scan American Corporation](#). 19 locations, nine days of shooting, 100+ people total, and over one month later, the entire team is symptom-free. WE DID IT!

The MAC500 is a mobile air cleaner and right now you can get \$150 off with code HINDSIGHT2020. Learn more here: <https://lnkd.in/gDTrh7M>

Tickets for our movie are on sale via Eventbrite: <https://lnkd.in/gRx-YKe>
